

The background of the top half of the cover is a photograph of a large industrial facility, possibly a refinery or chemical plant, at dusk. Several tall, cylindrical distillation columns are visible, illuminated from within, casting a warm orange glow. A complex network of pipes, walkways, and structural steel is visible throughout the facility. The sky is a pale, hazy blue. A large blue diagonal banner cuts across the bottom half of the image, containing the company's name and logo.

COMPANY PROFILE

The main logo for SK Fabricator & Erector is positioned in the bottom left. It consists of the letters 'SK' in a large, bold, blue serif font. A yellow swoosh underline is positioned beneath the 'SK'. Below this, the words 'FABRICATOR & ERECTOR' are written in a blue, sans-serif font. At the very bottom, the tagline 'PERFECTION THROUGH PRECISION' is written in a smaller, blue, sans-serif font, flanked by two horizontal lines.

PERFECTION THROUGH PRECISION

INTRODUCTION

WELCOME TO S K FABRICATOR AND ERECTOR

We, M/s. S K FABRICATOR AND ERECTOR is one of the leading Engineering Contractor for Industrial Piping, Structure Fabrication, Storage Tanks, Equipment Erection, Ducting & Insulation Works for project & maintenance job, Committed towards quality services.

Our office & Store is fully equipped with all modern equipment's, tool and other infrastructures backed by our efficient team of Engineers, Supervisors and workers. We aim at perfection in Job that we are undertaking and complete in record time.

ADVANTAGES OF HIRING OUR SERVICES

- TOP- NOTCH FABRICATION EQUIPMENTS.
- PROFESSIONAL ENGINEERS AND DETAILERS.
- WELDING SPECIALISTS.
- FASTER PROJECT COMPLETION

MISSION AND VISION

OUR FOCUS

To provide integrated solutions to requirements for all types of structural design and work, fabrication, piping, machine installation, machine maintenance and any modifications required to complete the work.

OUR GOAL

To maximize the business value of your project through early contractor involvement and optimize the fabrication process with modularization.

OUR MISSION

Adding value to everything we do by creating better solutions.

SAFETY

At S K FABRICATOR AND ERECTOR , safety comes first in everything we do. Our goal is to have an incident and injury free workplace. All of S K FABRICATOR AND ERECTOR is committed to top quality workmanship, professional customer service, and guaranteed delivery, but never at the expense of safety. S K FABRICATOR AND ERECTOR strives to uphold the highest quality standards, through:

GUARANTEED QUALITY

Professional certification & quality assurance.
Comprehensive project documentation.

GUARANTEED SERVICE

Dedicated single point of contact throughout each project.
Friendly, knowledgeable and professional staff.

GUARANTEED DELIVERY

Make no commitments we cannot keep.
Will not accept a project that we cannot deliver on time

AREAS OF EXCELLENCE

MECHANICAL AND PIPING .

INDUSTRIAL PIPING is the heart of SK's business. Ever since the inception of our company S K FABRICATOR we are renowned as leading service provider of Piping Fabrication.

These fabrication services cater to the needs of various AUTOMOTIVE INDUSTRIES, PHARMA INDUSTRIES, DAIRY AND FOOD INDUSTRIES, CHEMICAL INDUSTRIES AND POWER INDUSTRIES. Our Piping Fabrication service are widely praised among our clients for features like timely accomplishment of work and cost effectiveness. Due to our rich past & experience, we are capable of imparting these services for piping of any size and of any type.

WE HAVE EXPERTISE IN

- SS PIPELINE
- FIRE PIPE LINE
- GAS PIPE LINE SUCH AS PNG, LPG ETC...
- PETROL AND DIESEL PIPE LINE
- STEAM LINE, NITROGEN LINE, CHILIER LINE, AIR LINE ETC....

AREAS OF EXCELLENCE

JACKETED PIPING FABRICATION

Jacketed piping systems are different than single-wall piping, and it comes with different problems.

WE know how to handle all your jacketed piping needs. Our team of engineers, technicians, welders, and machinists is experienced in designing, fabricating, and installing jacketed piping systems. Jacketed piping requires a certain precision in welding and lay-out. The jacketed pipe used in the process industry is double-walled and designed to maintain the temperature of the material that is moving through it.

AREAS OF EXCELLENCE

STRUCTURE FABRICATION AND ERECTION

We undertake Structural Steel works for all types of Plants / Buildings which includes I - Beam, Angles, Channels, Flat Bars, Squares and Rectangular tubing fabrications. We manufacture Industrial fabrication works such as pipe supports, steel pipe racks, platforms, access ladders, etc both at our factories and on client sites.

SK FABRICATOR employs a team of highly experienced structural steel, fabricators and welders competent to work with materials such as Mild Steel, Alloy Steels, Stainless Steel, our products are compliant with the various quality requirements of our Clients.

AREAS OF EXCELLENCE

MANUFACTURING OF STORAGE TANK

We are one of the Steel Storage Tank manufacturers and exporters offering high quality, durable and reliable MS/SS storage tanks such as oil storage tanks, petroleum tanks, Juice Storage Tanks, Water Storage Tanks, Low Pressure Water Storage Tanks, High Pressure Storage Tanks and many more items. We have been engaged in manufacturing, supplying and exporting a wide range of square steel tanks, cylindrical tanks and other storage tanks for processing and storing hazardous organic chemicals and other products in industries.

We also offer Tank Installation Services and Fabrication Job Works.

AREAS OF EXCELLENCE

SS MAGNETIC FILTERS

Our company offer meticulously designed Magnetic Filters that are widely used for separating iron particles from large volume liquid or semi liquid line flow systems. These are also installed in a process line along the passage of fluid flow. The magnetic filters are easy to clean and re install. These are also available in varied sizes to suit the requirements of our customers.

AREAS OF EXCELLENCE

MAINTENANCE OF INDUSTRIAL PLANTS & MAJOR SHUTDOWN WORK.

We sk fabricator provides onsite repair and maintenance services for rotating and reciprocating equipment during turnarounds or as part of a routine maintenance crew. We can replace bearings, seals, couplings, gaskets, change oil, diagnose issues, install / remove motors, regROUT machinery bases, onsite machining and welding. Let us manage the entire your machinery maintenance with our skilled staff and we will reduce your operational costs and improve your mean time between failure. We have proven technology to increase your efficiency and increase operational life of your equipment.

AREAS OF EXCELLENCE

INSULATION

Pipe Insulations are materials or combinations of materials wrapped around the pipe which retard the flow of heat energy. Pipe insulation reduces energy losses to a great extent and thereby reduce energy cost. Piping shall be insulated as per the insulation class, operating temperature, and insulation thickness stated.

PIPE INSULATION TYPES

- Steam Pipe Insulation
- Hot & Cold Insulation Work
- Reactor & Tank Insulation
- Armaflex Cold Insulation Work

FEATURES

- **Customize service**
- **Reliable services**
- **Client friendly approach**
- **Competitive Prices**
- **Timely delivered**
- **Provide professional services**
- **Experienced staff**
- **Quality Management**
